

Airway Management for Anaesthesiologists – 2010

- Time:** December 2nd (10 a.m.) to the 3rd (4 p.m.), 2010
- Place:** Rigshospitalet, University hospital of Copenhagen, Denmark
- Price:** 4.850 DKK (approx. 650 EUR), including course material, lunches and working-dinner on the evening of the 2nd.
- Background:** Problems with managing the airways are primary causes of serious complications and death in relation to anaesthesia. The course will provide you with tools to prevent this to happen to your patients.

Course content

Theory/lectures:

- Preoperative evaluation of the airway made useful
- Have a plan! Prehospital management.
- Awake intubation – making it a pleasant experience!
- Fiberoptic intubation made easy!
- The "cannot-intubate-cannot-ventilate"-situation. Recognition. Management choices.
- The paediatric airway
- Airway techniques and equipment- what is new and what do I really need?
- Bronchoscopy and BAL in the ICU
- Separating the lungs.
- **NEWS!: Ultrasound and the airway. Single- versus multiple-use-airway- equipment. Frontline - what next?**

Practical/workshop:

- Chricothyrotomy on larynxes from pigs
- Fiberoptic airway management
- On full-scale simulators, SimMan: Managing the "cannot-intubate-cannot-ventilate"-and the "cannot-intubate-can-ventilate" situation and other
- Retrograde intubation and various devices (ILMA, Airtrach, glidescope, McCoy, Henderson-, Retromolar, Easy-Tube, C-trach, Levitan, McGrath, AWS, etc.)
- Lung separation and bronchial blockers
- The paediatric airway

Arranged by: Department of Anaesthesia, 4231, Centre of Head and Orthopaedics, Copenhagen University Hospital, Rigshospitalet, Copenhagen. Telephone: +45 3545 3474.
www.airway.rh.dk, www.airwaymanagement.dk

Guest lecturers: **Ankie Hamaekers**, Maastricht, The Netherlands

Paul A. Baker, Starship Children's Health, Auckland, New Zealand

(substitutions may be arranged in case of unforeseen events)

Faculty: Anaesthesiologists, pulmonologist, emergency-, intensive-care and pre-hospital physicians and ORL-surgeon with expertise in airway management

Course Director: Michael Seltz Kristensen M.D., Michael.seltz.kristensen@rh.regionh.dk

Registration: To secretary Gitte Blom: gitte.blom@rh.regionh.dk. Deadline is October 24th. The number of participants is limited due to the workshop.

Notice:

1. The course language is English
2. All participants are asked to bring along an airway-management patient-case (or question) for the discussion and workshop
